Expert Reviews:

Edmunds.com: What really sets the SLK-Class apart, though, is its complete package. In the premium roadster segment, at least, the three-pointed star is now synonymous with performance as well as other, more traditional Mercedes traits.

newCarTestDrive.com: SLK-Class is Mercedes' best small roadster yet. Its retractable hard top is unique in the class, offering the best of two worlds, and it delivers the cachet many people associate with the three-pointed star. This is a sports car in the purest sense.

KBB.com: The perfectly aligned side bodylines appear as though carved from a single block of steel, with a gently curved rear end that features flush-mounted cut-in tail lights and twin trapezoidal exhaust ports. The SLK-Class looks as good with its retractable hardtop in place as it does when that top is tucked away beneath the color-matched hard cover.

ConsumerReports.org: The SLK-Class has a controlled, compliant ride that does a good job of preventing road impacts from entering the cabin. When up, the folding hardtop makes the SLK-Class nearly as quiet as some family sedans, with well-suppressed wind and road noise. Body lean is minimal and the steering is quick, communicative, and well-weighted.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.

Expert Reviews

Expert Reviews are excerpts from reviews and automotive awards from sites across the internet. The sites include newCarTestDrive.com, Edmunds.com and other similar sites.

The positive Expert Reviews are only excerpts of the full article or review. The full article may contain additional comments, both positive and negative, regarding the vehicle.
